

UB-7235-CH Technical specification

Pan and Cistern

- Comfort height contemporary modern design
- Dual flush cistern 3/6 litre Flush with Chrome Flush Button, bottom RH water connection
- Made from High-Quality Vitreous China
- Suitable for horizontal & bottom soil pipe connections, click [HERE](#) to view waste pipe
- Pan Assembly quick guide click [HERE](#)

1. Electronic Bidet Seat

- Made from germ-resistant plastic for maximum hygiene
- Posterior cleansing with a variable spray for all the family
- Feminine cleansing, separate nozzle exclusively to assist with feminine hygiene, especially effective during menstruation or pregnancy.
- Variable spray (5 settings)
- Adjustable wands position
- Aerated spray
- Kids function
- "IIP" (Intensive Impulse Pulsation) function
- "Auto" function (hygiene + dryer)
- Jet type: continuous or with a variable flow for better cleansing action
- Warm water with variable temperature setting (3 levels)
- Heated seat with variable temperature setting (3 levels)
- Warm air dryer with variable temperature setting (5 levels)
- Deodorizer
- Continuous water heating
- Intelligent energy saving function
- Attached control arm with soft touch buttons
- Automatic cleaning of the wands before and after each use
- Gentle closing seat and lid
- Touch activated on/off sensor to prevent overspray
- Self-check
- Easy installation
- Water connection on left side of the seat facing toilet, power cable connected center back of seat
- Pan pure white china
- Net weight with the pan; 48Kg

2. Warm air dryer

- Adjustable (5 levels)
- Power Consumption 280 ~ 333 W
- Safety devices: Temp Fuse

3. Heated seat

- Heated Seat: Temperature Adjustable (3 levels) / 34 °C - 40 °C
- Safety Device: Temp Fuse
- Power Consumption: 55 ~ 65 W

4. Deodoriser

- Automatic start: deodoriser starts automatically when the seat is occupied.

5. Safety

- Electricity Safety Protection: 15 mA - GFCI
- Temp Fuse
- IP24 rated

6. Materials

- Easy detachable: a convenient bracket plate provides easy attachment and detachment of the main body for an easy toilet cleaning.
- Soft-closing lid and seat: Function to make lid and seat open and close smoothly
- Easy lid removal: Lid is easy to install and remove for a perfect cleaning.
- Nano-silver technology: applied to the water tank and nozzles give them antibacterial properties.
- Ultrasonic waterproof soldering seat: It is easy to use with safety in a humid toilet room with the help of spinning design providing a waterproof function and preventing water drops from being soaked into.
- Antibacterial resins: Adapted antibacterial resin preventing colitis germs and sundry germs from being propagated.
- Toilet pan: pure white vitreous china

7. Power rating and energy consumption

- Power rating: AC 230 V, 50 Hz
- Energy consumption: 1660 - 1975 W
- Power cord length: 1.5 m
- Intelligent energy saving function
- Potable Water: Pressure 0.5 ~ 7.4 Atm

8. Warranty

- Electronic seat 2 years warranty parts and labour, K, ISO9001
- Toilet/cistern 2 years all parts

9. International Certification

- CE, EMC, JET, Dentori, K, ISO9001
- Please Note. To achieve compliance an 'Approved' double check valve or some other no less effective back-flow prevention device providing backflow prevention protection to at least fluid category two must be fitted at the point of connection between the water supply and the water inlet to this appliance.
