

UB-6500 Series - Remote Sync Instructions

N.B. Before attempting to pair your remote with the seat, please ensure the night light has been turned off.

This can be achieved by raising the lid and seat and turning the knob on the side of the unit anticlockwise until a longer beep is heard and the night light is not illuminated.

Please refer to Image 1 for remote button configuration

1. Simultaneously press and hold **Dry/Stop** & **Decrease Temperature -** buttons
2. Keep the **Decrease Temperature -** button pressed throughout steps 3 to 7.
3. The 5 indicator lights will consecutively illuminate followed by only the first indicator light flashing.
4. Press and release **Decrease Flow -**
5. Press and release **Increase Flow +**
6. The first indicator light will stop flashing and 1 or more will be illuminated
7. Release **Decrease Temperature -** button
8. You can now select a pairing code using the **Decrease Flow -** or **Increase Flow +** buttons.
9. The indicator lights on the remote will indicate which pairing code is selected. Please refer to image 2
10. Once you have decided which pairing code you require, press the **Knob** on the side of the seat to select and confirm this.
11. Finally, press the **Dry/Stop** button on the remote
12. The remote should now be paired with your bidet seat.
